tratth Health. Compound Syrup of Tar and Wood Naplitha.
The soly Certain Remedy for the cure of CONSUMPTION

sibms. Bronshitis, Spirting blood, Pain in the side and breast, sore throat, Hoarseness, Palpiration of the heart, Whooping cough, Croap, Hives, Nervous tremours, Liver complaint,—Diseased Kidneys, and Affections generally of the throat, breast, and lungs.

Of all the diseases meident to our climate, none is so universal and at the same time so insiduous is so universal and at the same time so insiduous and fatel as Consumption. In this country especially, pulmonary Consumption is emphatically a scrugge, and in its resistless career sweeps over the land as a destroying Angel, laying low with releastess hand, the strongest and fairest of or race. Hitherte all efforts to arrest this dread disease have proved vain, and all that seemed with in our power, was at best the alleviation of suffering, rendering smoother the certain passage to the ng, rendering smoother the certain passage to the comb. The proprietor, in offering this preparation to the public, would embrace the opportunity to state upon what grounds it purs forth its merits, and the reasons upon which it founds its superior claims to the affection of the afflicted that all who require its use may repose full confidence in its curative powers. Since us first preparation he has had the pleasure of winessing the happy results in mimorous instances, but he was determined not to offer it to the public until he had become thoroughlo convinced of its effiracy. Having such conviction, he now confidently offers it as a remedy without a parallel for the sure of PULMONARY CONSUMPTION and its

indred discases.

Let the following speak for itself.—

I have used Thomson's Confound Syrup of TAR & WOOD NAPHTHA, for some time in my prac-tice, and have found it the most efficient remedy I have ever used in Consumptive cases, Chrenic Catarrh, etc. when great irritability, with weak ness of the pulmonary organs, existed. The rap idity with which it acts is greatly in its favor in cases where dyspnoa or appression exists, which is immediately relieved by it."

"In pulmonary consumption it can be used with confidence, being applicable to every form of the disease, and I consider it a medicine well worthy the attention of Physicians, and exempt from the imputation of empiricism."

M'LANE'S LIVER PILLS!

These Pills are the precription of an eminent Physician in Monongalia Co. Virginia, and were used by him in his private practice as a remedy m bifious complaints, for years before he thought of offering them to the public. Such, however, was the success of the Pills, and so great the mumber of persons benefited by them, that the making of the quantity requisite to supply the increasing demand, began to intefere materially with the time required to attend to his practice. To prevent this he has made arrangements with the house of J. KIDD & Co. No. 60 Wood Str' e Pittsburgh, Pa., to prepare and vend them, where he genuine may be procured at all times and in

any reasonable quantity.

These Pills are not recommended as a panacea for "all the ills that flesh is heir to," but in an affections of the Liver and in all bilious com: plaints, they stand without a rival. A medicine which is perfectly safe, and may be given to children from tender infancy, to advanced age, lays under no restrain as to cold water or any kind of food. Purges mildly, subdung fever; destroyes and expels worms with itrvariable success, and is easily administered to buickening the blood and invigorating the sys-children. Indeed this medicine is invaluable for all

That it possesses these valuable properties, is of the delicate diseases to which wemen are fearless asserted: still claiming the additional ad- subject. During its brilliant career, it has been introduced | to p least success, where it has promptly expelled

worms to an almost incredible amount.

Hear what the Editor of the Bulletin of the Pacific, (published in Putsburgh, Pa.) says in in reference to the article,
"In looking up a few advertisements for my

small sheet, the otherday, I called in upon Mes-srs. J. KIDD & Co., and remarking that I would be glad to advertise any medicine that really was essentially useful, they furnished me with their circular respecting Dr. M'Lane's Worm Specific with the accompanying certificates, Feeling pursuaded that the certificates were genuine, I took some of the menicine home for the use my own young family. I gave the first day small teaspoonful to Serah. She was wan-loo ing and black under the eyes, She passed seo eral worms, some as large as a pipe stem. also gave a small traspoonful to Sarruel, a little rosy cheeked, fleshy boy, about 32 years old.— But as his stomach was tympanous, i. e. he was pot-bellied, I thought he might have worms— He cried after more, which I did not see fit to give him, but upon the eperation of this medicine his mother and the neighbors were surprised at he rusult. He passed nearly a pint of worms, he rusult. He passed nearly a pint of worms, almost all as big as common pipe stem. There twas seventy in all. I then gave some to a little boy only 2 years old, and he passed twenty five some eight inches in length. I therefore fee clear to recommond M-Lane's Vermituge as a specific for worms. It fairly seems death to them. ISRAEL REES, Editor.

DR. TOWNSEND'S SARSAPARILLA.

WE MOST EXTRAORDINARY MEDICINE IN THE WORLD THIS medicine is put up in quart bottles; it is six times cheaper, pleasanter and warranted su-perior to any sold. It cures diseases without de bilitating vomiting, purging, or sickening, the pa-tient. The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates diseases it invigorates the body. It is one of the very best Spring and Summer med-icines ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood: a power pessessed by no other medicine. And in this lies the grand se-cret of its wonderful success. It has performed within the past two years, more than 35,000 cures of severe cases of disease; at least 6,000 of these

were considered incarable. More than-2,000 cases of dyspepsis, 4,000 cases of general debility, 7,000 cases of different female complaints

2,000 cases of scrofula, 1,500 cases of liver complaint, 2,500 cases of disease of kidneys and dropsy

8,000 cases of consumption
And thousands of cases of diseases of the blood viz. Ulcers erysipelas, saltrheum pumples on the face, &c. &c. Together with numerous cases of sick headache, pain in the side and chest, spinal This we are aware must appear incredible, bu

It braces the whole system, renews permantly into many families, where other known and accessible Vermifuge had been tried without the ness and disease.

THE GREAT FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Bar-renness, Leueorrhoen, or Whites, obstructed or difficult Menstruction, Incontinunce of Urine, or involuntary discharge thereot, and for the gen-eral prostration of the system—no matter wheth-er the result of inherent cause or causes, pro-duced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons subject to weakness and lassitude, from taking it, at once become robust and full of energy un-der its influonce. It immediately counteracts the nervelessness of the temale frame, which is the groat cause of barrenness.

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that andreds of cases have been reported to us .-Several cases where families have been without children, after using a tew bottles of this inval uable medicine, have been blest with a healthy

Fashionable Tailoring.

THE Subscriber takes this method of than-king his frends and parrons for the liberal support they has given him for the last nine years hat he has carried on the Tailoring business it Ypsilanti, and begs leave to inform the public that his shop is conducted on very different prin ciples from tailoring establishments in the coun-try towns of this State, where drunken and infe-tior workmen are almost entirely employed, or boys and young women taken for three or six months, who of course spoil the work put into heir hands. He can assure his friends that there are none at present employed in his shop but have been from four of seven years at the business, carefully taught by himself in all the ne west met ods of working in the most Fashionable Shore in New York; and, as it twell known to the public that he has never spaired expence to obtain all the various changes of leshion with. With these assurances he thinks his friends will give him a call, when they want work done, at his old standinext door to E. J. Hewic's store, where he will do work in all the different branches of the Tailoring Business at half his original prices tor eash down. Ypsilanti Feb. 0 sal WM. WILKINSON,

Hartford Fire Insruance Comp'y

July 24. 1845, THE recent destructive fire in New York will ofcourse excite solicitude in regard to its effect on the solvency of insurance companies in that city and the neghboring places. The Direc-tors of the Hartford Fire Insurance Company are happy to assure their customers and the public, that they are prepared to adjust and pay at mat-urity, all losses sustained by their office from their surplus funds and current receipts, without delay, and without withdrawing their permanent investments. Their capital remains ample for the security of all who insure with them; and they invite owners of desirable property to obtain Polices on favorable terms, both at the Home Ofifice and at their several agencies. Their mode of transacting business which for 35 years past has secured the public confidence, will remain
